

The mobile

Everyone knows meals on wheels and some are acquainted with the field kitchen, but who knows the smallest mobile kitchen in the world?

kitchen.

It consists of a kitchen completely made of stainless steel that fits in your pocket or backpack! Packed away, it is small – 11” long and 0.9” wide. Assembled, it has a grilling area of 9” x 10”. A collapsible firepit is available to keep the outdoors safe and serve as a container for the charcoal or wood. Now all that is called for is culinary talent. Enchant your guests with a 5-course grill menu!
